

## LIST OF CHANGES

### Effective from 1 March 2025

1. Development of the MAB's Evaluation Criteria System for University Professors:
  - According to the amendment to Section 69 (1a) of the Higher Education Act (Nftv.), which enters into force on February 28, 2025, *“The evaluation criteria system developed by the MAB for university professor applications is approved by the minister responsible. The MAB shall publish the criteria on its website.”* The evaluation criteria system for university professor applications, approved by the minister, is published [on the MAB's website](#).
2. Formal changes in the university professor documentation:
  - The deadline of the Senate's decision on supporting the application has been extended (from three months to six months).
  - The method of verifying teaching activities has been expanded (a certification authenticated by the rector, based on data recorded in the Neptun database, can also be submitted).
  - The method of verifying foreign guest teaching activities has been simplified (certification by the direct workplace superior).
  - The method of verifying subject director responsibilities has been simplified (certification by the direct workplace superior).
  - The method of verifying scientometric data has been simplified (certification by the institutional MTMT administrator).
  - A statement by the Applicant identifying the department and scientific committee of the Hungarian Academy of Sciences that his/her field of research falls under is no longer required.
3. Substantive changes in the university professor documentation:
  - Implementation of legislative changes.
  - Point 1a.3 of higher education performance has been clarified (teaching activity conducted in a foreign language instead of conducted abroad).
  - The point regarding subject director responsibility has been clarified (course responsibility now pertains to the past ten active years instead of the time of application submission).
  - The scientific statement template has been clarified (it is now required solely for previous scientific activities).
  - Further clarifications in the wording of the text (e.g., specifying the definition of the past ten active years preceding the application submission and refining the phrasing of requirements related to application activities).
