

DECISION

of the Board of the Hungarian Accreditation Committee

No. 2022/3/V/1

The Board supports the accreditation of Hillel-Yaffe Medical Center (Hadera, Israel) as a clinical practice site for 5 years until March 25, 2027. The accreditation covers the following subjects: internal medicine, surgery, pediatrics, obstetrics and gynecology, neurology, psychiatry.

Justification:

The key criteria of the simplified procedure were fulfilled by the clinical practice site as follows:

1. The clinical practice site is the practice site of the Faculty of Medicine at the Technion Israel Institute of Technology, which ranked 201-250 in the QS Ranking (Medicine) category, thus fulfilling the ranking requirement.
2. The clinical practice site undertook to train students and indicated the number of students to be admitted.
3. The clinical practice site has made a positive statement about the changes compared to the previous accreditation, i.e. the range of services has been expanded and capacity has increased. The hospital can offer a full range of sixth-year general medical training practice.
4. Excellent feedback was received from students completing the internship at the clinical practice site.
